Re: Letter of Recommendation

To Whom It May Concern:

I had the pleasure of working with Fullmer Construction in the construction of the Kerlan-Jobe Center for Sports Neurology and Pain Medicine. This was a challenging project, as the Center was designed to be a truly state-of-the-art, technologically advanced facility.

The Project Manager, Frank Monjarez, was exceptional throughout the entire process. Frank was friendly, professional, and meticulous in making sure the project was completed perfectly. The Fullmer team successfully navigated demanding timelines, came up with creative solutions to issues that arose, and consistently exceeded our expectations. I have no hesitations in giving Fullmer the highest of recommendations and look forward to working with them again on future projects.

Regards,

Jay Paik

Director of Operations and General Counsel

Kerlan-Jobe Center for Sports Neurology and Pain Medicine
